

Statement of Solidarity with the Greek Working Class

THE RIGHT TO PROTEST IS NON-NEGOTIABLE

HANDS OFF TRADE UNION RIGHTS AND FREEDOMS

The trade unions, who we sign this statement we express our solidarity to the working class of Greece and its trade unions in their struggle against the abolition of basic trade union rights and freedoms. Especially against the bill of the Greek Government which bans the right to protest and the right of the people to organize demonstrations.

The criminalization of trade union action, the criminalization of protests is a great threat to all political and individual freedoms and must be stopped.

The real goal of this development is to block the action and the struggle of the militant unions and the people who suffer from the anti-workers' policies, especially from the crisis that follows the pandemic. The goal to block the action of the militant unions, to stop the struggles and the demands of the people is common of the employers, the Governments and their organizations in all countries.

We express our solidarity to the Greek Working Class

The right to Protest is non-negotiable

Hands off trade union rights and freedoms

WE DEMAND THE GREEK GOVERNMENT TO WITHDRAW THIS REACTIONARY BILL
